According to our attorneys, these were filed in a timely manner on June 24, 1988 and should be processed in a timely manner.

Because of the heavy load on Ben Miller, we sent these to Kevin Fisher for final checking as to the engineering portions of the application. Mr. Fisher did find three typographical errors and did improve on the maps which we presented to him, however, these were the only changes that he told us were required to make the applications more "presentable" to the Federal Communications Commission.

We look forward to the speedy and timely grant as we can secure many new markets for the distribution of our programming and the dissemination of the Gospel.

Sincerely yours,

George D. Sebastian

KMLM-TV, Odessa, Texas

Dear Mr. Feaster:

Attached hereto is an updated consolidated Ownership Report (FCC Form 323) for the referenced television facilities. A consolidated report is being submitted since the licensee or permittee entities of the referenced facilities share at least one common director. Accordingly, it is believed that a consolidated report will simplify the Commission's ownership files.

Since the attached consolidated report covers 13 television facilities, sufficient copies of this cover letter are being provided for inclusion in each station's ownership file. However, the master Ownership Report should be maintained in the KTBN-TV, Santa Ana, California file.
